

Sustaining Members

Our Sustaining Members make an important contribution to our ongoing growth. Their financial support assists ADEA in pursuing its goal of achieving optimal health and wellbeing for all people affected by, and at risk of, diabetes, through education, advocacy, support and research. This year, ADEA welcomes two new additions to the sustaining members community: Abbott Nutrition and Eli Lilly.

Abbott Nutrition

Abbott Nutrition is committed to improving the quality of life and clinical outcomes of patients through the science of nutrition. Abbott Nutrition offers science-based nutrition products for every stage of life - from infant and paediatric to adult healthy living and therapeutic nutrition. Glucerna Triple Care, is a scientifically formulated food for medical purposes – specifically for people with Diabetes. Glucerna helps to minimise blood sugar response, has a healthy fat blend, and supports a diabetes dietary management plan.

AstraZeneca

AstraZeneca Australia, based in North Ryde, Sydney, is the largest pharmaceutical company operating in Australia. AstraZeneca employ almost 1,000 people, are one of the country's largest manufacturers of medicines and are a key exporter to 35 international markets. AstraZeneca manufactures 100 separate product lines, namely sterile respiratory and local anaesthetic products. Of the top twenty medicines used in Australia, four are made by AstraZeneca. AstraZeneca produces medicines in six separate therapeutic areas including cancer, cardiovascular, gastrointestinal, infection, neuroscience and respiratory inflammation. AstraZeneca contributes significantly to clinical trials in Australia with approximately 30 concurrent trials in 190 sites across the country.

Eli Lilly

Lilly Diabetes works to provide solutions that help advance science, meet the needs of HCPs and reduce the complexity for people with diabetes, by providing education, resources and practical support. Lilly Diabetes collaborates with external parties such as opinion leaders, advocacy organisations, and industry partners worldwide to enhance diabetes care providing personalised solutions to support patients' everyday lives.

MSD

Today's MSD is a global healthcare leader working to help the world be well.

MSD has a range of educational initiatives developed to support diabetes educators in their day to day clinical practice including:

- Diabetes Educators Summit – an annual education event held across Australia that includes leading experts from a range of disciplines involved with the treatment of diabetes, providing a mix of the latest evidence-based information coupled with some practical information.
- ADEA-ADS Breakfast Symposia – hosted by MSD, the 2014 session included key experts sharing their knowledge to assist diabetes educators enhance their skills in managing high risk groups.

In addition MSD provided an educational grant to support The RPA Diabetes Centre 2014 webinar series. The live, online events detail the latest solutions, treatments and expert thinking surrounding diabetes. Diabetes Educators can join leading experts from the RPA Diabetes Centre as they impart their renowned expertise in an interactive forum, allowing direct access to their experience from any device with a fast web connection (including a smartphone or tablet).

Roche

Diabetes Care is a pioneer in the development of blood glucose monitoring systems and a global leader for diabetes management systems and services. For more than 35 years, the Accu-Chek brand has been dedicated to enable people with diabetes to live life as normal and active as possible as well as to empower healthcare professionals manage their patients' condition in an optimal way. Today, the Accu-Chek portfolio offers people with diabetes and healthcare professionals innovative products and impactful solutions for convenient, efficient and effective diabetes management. It encompasses blood glucose meters, insulin delivery systems, lancing devices, data management systems and education programs – contributing to an improved medical outcome.

Sanofi Diabetes

Sanofi has an 85-year track record of commitment to developing effective solutions for diabetes patients. Faced with the public health challenge that the worldwide diabetes epidemic represents, Sanofi delivers innovative, patient-centred care options. Sanofi has products available for people with type 1 or type 2 diabetes, and is researching, developing and bringing new services and products to market to assist Australians in effectively managing their own health.

Novo Nordisk

Novo Nordisk is a focused health care company and a world leader in diabetes care. They have a strong commitment to changing diabetes, reflected in their focus on research and development, their partnerships with professional and consumer organisations and their commitment to communities in the developing world through the World Diabetes Foundation.
