

## 100 Years of Insulin: Innovation that never ends

THURSDAY, 11th NOVEMBER 2021

LIVE, 7.00pm - 8.15pm (AEDT)

As we approach World Diabetes Day we continue the theme of access to care. [Visit worlddiabetesday.org](https://worlddiabetesday.org) >

Join our panel of experts as they present case studies that highlight the practical use of insulin in managing diabetes in general practice.

We value the questions we receive for our live events, it enriches the experience for not only our viewers but also our presenters. To allocate enough time for Q&A it's helpful to receive questions in advance.
